SeaLand® Holding Tank Accessories
Upgrade tank quality and performance

Diptube Kit

Removes waste through top of tank – eliminates stagnant waste from sitting in discharge line connected at bottom of tank.

- Prevents clogging; reduces tank residual
- Fits tanks up to 30 in. (762 mm) high
- Easy to install

385310660	Holding tank diptube kit

NozAll™ Pump-out Adapter

Provides airtight seal between rubber nozzle or cam-operated type pump-out station nozzle and most boats' waste deck pump-out fittings.

- Cleaner pump-outs – eliminates need for messy water source to assure sufficient vacuum
- Three sizes accommodate most pump-out fitting threads

Determining which NozAll adapter will fit a deck pump-out fitting requires two simple measurements from the cap of the deck fitting.
1. Measure the outside diameter (O.D.) of the cap threads (A).
2. Count the number of threads per 1/4-in. of thread length (B). Multiply that number by 4 to determine threads per inch (TPI).
3. Use chart below to determine to which NozAll item number the measurements apply.

ITEM	DESCRIPTION - MPT SIZE and TPI	DECK FITTING CAP O.D.	THREAD COUNT PER 1/4-IN.
310343502	1-1/2 in. MPT (38 mm), 11.5 TPI (4.5 tpcm)	1-7/8 in. (48 mm) OD	2-3/4
310343503	1-1/4 in. MPT (32 mm), 11.5 TPI (4.5 tpcm)	1-5/8 in. (41 mm) OD	2-3/4
310343504	1-1/4 in. MPT (32 mm), 16 TPI (6.3 tpcm)	1-5/8 in. (41 mm) OD	4

Universal Level Indicator Kit

Permits easy upgrade from single to multiple level holding tank monitor system.

- Replaces individual TankWatch® probes
- Two probes lengths adjust to any tank size or desired indication level
- Integrates with any Dometic Tank Monitor system

ITEM	DESCRIPTION
385311253	Universal level indicator kit with 12-in. (305 mm) probe
385311254	Universal level indicator kit with 24-in. (610 mm) probe

TankSaver® Relief Valve

Protects holding tanks from excessive suction of dockside pumps during holding tank pump-out.

- Installs easily – no sealant or spinweld required
- Excellent odor seal

ITEM	DESCRIPTION
313255247	TankSaver relief valve

Universal Clean-out Kit

Provides convenient access to tank interior for inspection and cleaning.

- Installs easily on any rigid tank material
- Includes 3-in. (76 mm) inspection port and cap, O-ring, gasket and stainless steel hardware

ITEM	DESCRIPTION
307238685	Universal holding tank clean-out kit

Universal Flange Kit

Allows Dometic Tank Monitor probe cap installation into existing holding tank.

- Creates 3-in. (76 mm) inspection port
- Includes threaded fitting, gasket and hardware

ITEM	DESCRIPTION
307230272	Universal flange kit
