

BOOSTER Series

12/12V

12/24V

24/24V

24/48V

15A → 45A

Need to charge one DC battery from another? Our DC/DC BOOSTERS deliver excellent performances

MAIN ASSETS

Intelligent

Our DC/DC BOOSTERS are intelligent battery chargers featuring a 4-stage charging program based on battery specification (Lead, Gel, AGM, Lithium, LifeSO4). These robust products also offer automatic protection against battery source drainage

Powerful/Efficient

Our DC/DC BOOSTERS are designed to charge an auxiliary battery from a single battery bank onboard commercial and leisure boats. This product range extends from 12/24V (charging at 30A) up to 24/48V (charging at 15A)

Four versions available

BOOSTER 12.12 (special order only)	12/12V	45A	250 mm x 150 mm x 80 mm	399205
BOOSTER 12.24	12/24V	30A	250 mm x 150 mm x 80 mm	399201
BOOSTER 24.24	24/24V	30A	250 mm x 150 mm x 80 mm	399202
BOOSTER 24.48 NEW	24/48V	15A	250 mm x 150 mm x 80 mm	399203

ALL-IN-ONE Series

12V

25A

Power charge, conversion, protection and 12V distribution in one single box. A robust and powerful product for boating purposes

MAIN ASSETS

SuperSafe

This Third Generation device offers solid AC Safety with one main circuit breaker (16A with 30mA differential) and two (10A) circuit breakers. This is an ideal solution when using a water heater, microwave oven or 220V power socket, for example

Ultra-strong connectors

ALL-IN-ONE products feature rock-solid, industrial-type AC and DC connectors

Powerful

Our ALL-IN-ONE products include a built-in 12V charger of the PREMIUM Series (25A) featuring 8 different charge programs

One version available

ALL-IN-ONE PREMIUM 12.25	3 out	12V	25A	395 mm x 188 mm x 103 mm	399121
